#### WHAT WE WERE ABLE TO DO

The year 2020 was an unprecedented year. There was no in person activity due to the lock down. However, we were able to do the Mother Daughter event before the shut down in March 2020.

We started to implement the two year Organization plan

We started to work on our challenges that were reachable while due to the pandemic lock down we were not able to attend to others

# OGAV SUPPORT AND PROMOTE ADVANCEMENT OF GIRLS EDUCATION

We promote and advance girl's education through - "Empowerment Learning series "Initiative" for girls and young women

Today's young generations have more paths to success than ever, but they also deal with more challenges, more risks, more dangers. So we teach, encourage and mentor them to:

•ASPIRE - ambition can become a reality with the right mind set.

•WE EMPOWER - We empower students with the tools and virtues to excel

•ACHIEVE - taught to set goal and accomplish them

Standards for excellence are our backbone curriculum. It informs everything we teach.

### **Developed and improved Program quality**

#### **Co-curricular School Program (Girls club)**

The Girl's club is a socio-academic club that is student-centered and focused. It gives an impactful experience for a positive outcome

- We were able to reach out to more girls about 60 young girls through our events; the turnout was very impressive with a positive feed back
- We were able to consolidate our efforts and established a weekly virtual Girls club borne out of pandemic adversity as a way to adapt to lock down changes

#### **Outreach events, Impact and Influence**

Thanks to the generosity of our supporters and the efforts of the Trustees. It was a pandemic year where we all learned new ways to adapt to the changes and challenges we all face

#### **Annual Spring Event - Mother/Daughter Breakfast**

Mother Daughter Event held in March to commemorate the International Women's Day with the goals of:

- A. Reaching more youth to gain a better understanding of how to meet their needs and foster a good relationship at home
- B. Building relationships to foster better academic achievements and social skills with the girls
- C. For OGAV to be effective we need to start where it is most important, that is home. Statistically, it has been proven that girls succeed and thrive when they have good support at home.

**Debrief and feedback on Mother-Daughter Event** 

A successful event; Turnout was impressive; Discussions were engaging and empowering; Participants enjoyed a variety of activities provided and the meaningful discussions on how to build mother-daughter relationships.

#### Fall Event – Blooming in Adversity

 COVID-19 Emergency Response Support for Non-Profit Sept 8 – Dec 18, 2020 - COVID Intervention Project funded

The project purpose is to distribute care packages and offer mental health, navigation of financial resources and programs to 500 young adults in Peel region. This helps address the impacts of COVID-19 on youth who have faced increase challenges to reaching financial stability and barriers to mental health support as a result of the pandemic. This is in support of primarily children and youth including those in low income households or living in poverty.

#### **Virtual Meeting**

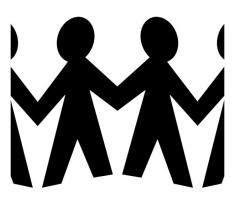

A weekly virtual program was set up to encourage teenagers to be more interactive to alleviate stress for good mental health and well being through a virtual program. This will help address the impact of COVID-19 on youth.

The social connection the girls are able to achieve virtually on Zoom is very important to their well being, both mentally and in their overall wellness and it helps build capacity. This is of the utmost importance now more than ever as there are no longer any after school co-curricular activities to engage them.

Providing this platform for them where we have different professionals speak on relevant topics and they have the opportunity to hang out with other girls is essential to their mental health and welfare.

Topics addressed were financial resources, Empowerment and Self development, and Mental wellness

<u>A Resource booklet</u> - Blooming in Adversity was put together to support the program
